BROADWAY HEALTHCARE CENTER

Earns

2026 AHCA/NCAL Silver National Quality Award
(National Award signifies Esteemed Achievement in Quality Care)

San Gabriel, California – **BROADWAY HEALTHCARE CENTER** has been recognized as a 2026 recipient of the *Silver National Quality Award* by the American Health Care Association and National Center for Assisted Living (AHCA/NCAL) for demonstrating systematic growth in quality care. This distinction is the second of three progressive award levels through the [AHCA/NCAL National Quality Award Program](#). The program honors long term and post-acute care providers across the nation that have demonstrated their dedication to enhancing quality care for the residents they serve.

“We are honored to receive the 2026 Silver Quality Award,” said Rithy Thong, Executive Director at Broadway Healthcare Center. “I believe this recognition moves us closer to our goal of becoming the facility of choice and employer of choice in the San Gabriel Valley community. We are proud, and we are just getting started.”

The AHCA/NCAL National Quality Award Program is a rigorous three-level process in which organizations are reviewed and evaluated by trained experts against the nationally recognized Baldrige Performance Excellence Framework. The framework helps providers strengthen organizational performance, improve outcomes, and enhance the quality of care for residents. At the Silver level, organizations demonstrate how they systematically improve performance and achieve results through effective approaches and processes that are deployed throughout the organization.

“Congratulations to this year's Silver recipients on reaching this level in the Quality Award journey,” said **AHCA/NCAL President & CEO Clif Porter**. “These providers have built strong systems, embraced continuous improvement, and are making a measurable difference in the lives of those they serve. As we look to a future that will ask more of providers as demand for care increases, this commitment to excellence will serve as a critical foundation.”

This year, the AHCA/NCAL National Quality Award Program proudly celebrates its 30th anniversary. Since its establishment in 1996, more than 8,000 providers across the country have participated in the rigorous, Baldrige-based program to strengthen their operations, improve outcomes, and enhance the lives of residents and staff. This milestone anniversary highlights the program’s lasting impact on advancing quality care throughout the long-term care profession.

“The journey to Silver requires perseverance, collaboration, and an unwavering focus on improvement,” said **Cathy Bergland, AHCA/NCAL National Quality Award Board Chair**. “Congratulations to our Silver recipients on achieving this remarkable milestone. Their dedication to quality is truly inspiring.”

The AHCA/NCAL National Quality Award recipients will be celebrated during [Delivering Solutions 26, the AHCA/NCAL Convention & Expo](#), October 11-14, 2026, in Boston, Mass.
